IOTA

FRC 2228
COUGARTECH

Iota's name originates from an ancient FRC 2228 CougarTech tradition of naming the robot after the Greek letter corresponding with the number of years FRC 2228 has competed in *FIRST*.

The phrase "not one iota" is an appropriate theme for FRC 2228, in that, although the team is young (50% of the team graduated last year), its members were not discouraged in the "slightest amount."

Autonomous:

Robot Set:

Yes
